TECHNICAL BULLETIN MT-10.03

September 14, 2010

UDOT TTQP Qualification Program

The Utah Department of Transportation (UDOT) Transportation Technician Qualification Program (TTQP) has implemented a new on-line registration for technicians' qualifications and qualification exams scheduling.

The website is: <https://j2ee.udot.utah.gov/prod/mat/f?p=209:1>; or you may access the website from UDOT's main page by clicking on the TTQP/WAQTC quick link. The website is also included on the UDOT Materials webpage.

CERTIFIED TECHNICIANS

UDOT certified technicians are listed under this application, which details the technician's current status (including Independent Assurance (IA) status).

CURRENT ON-THE-JOB-TRAINING (OJT) REGISTRATIONS

Technicians enrolled with the OJT program are listed in this application, which provides OJT information with which a user can verify enrollment. The enrollees in the OJT program are restricted in the use of the OJT program which is intended to be used for a new technician, once per qualification, until the technician obtains their qualification.

TECHNICIAN INFORMATION

This application provides the technician's current qualification status and a history of TTQP/WAQTC qualifications obtained and OJT registrations.

REGISTRATION AND CERTIFICATIONS

Technicians may register for an examination using this application. Schedules of classes, forms and documents are available to view and download. Certifications are obtainable by filtering by company or UDOT region. Individual certifications are downloadable and printable from this application.

New users (technicians that have never enrolled in OJT or an exam) must first create a user profile before registering for OJT or examinations.

CONTACTS

Brent Gaschler – Materials Database Engineer – bgaschler@utah.gov

Troy Cook – TTQP Qualification Specialist tcook@utah.gov

Marc South - TTQP Qualification Specialist – msouth@utah.gov

Amy Rico – Quality Systems Engineer – 1-801-965-4227 – arico@utah.gov
